

# Fire Wardens - from November 2014

The duties of a fire warden are:

- To check areas in buildings to ensure that no-one remains in the building;
- To act as a source of information to advise others responding to the emergency about:
  - Possible causes of the fire alarm actuations;
  - areas where people have failed to evacuate the building;
  - possible presence of disabled or mobility-impaired persons requiring assistance.
- Fire Wardens will not go further into a building (e.g. upstairs) to carry out their duties in the event of an alarm actuation; this presents an unnecessary risk to wardens.
