This book could not be possible without the financial support of HEIF.

Thanks and appreciations go to the friends who kindly agreed to be represented in the book.

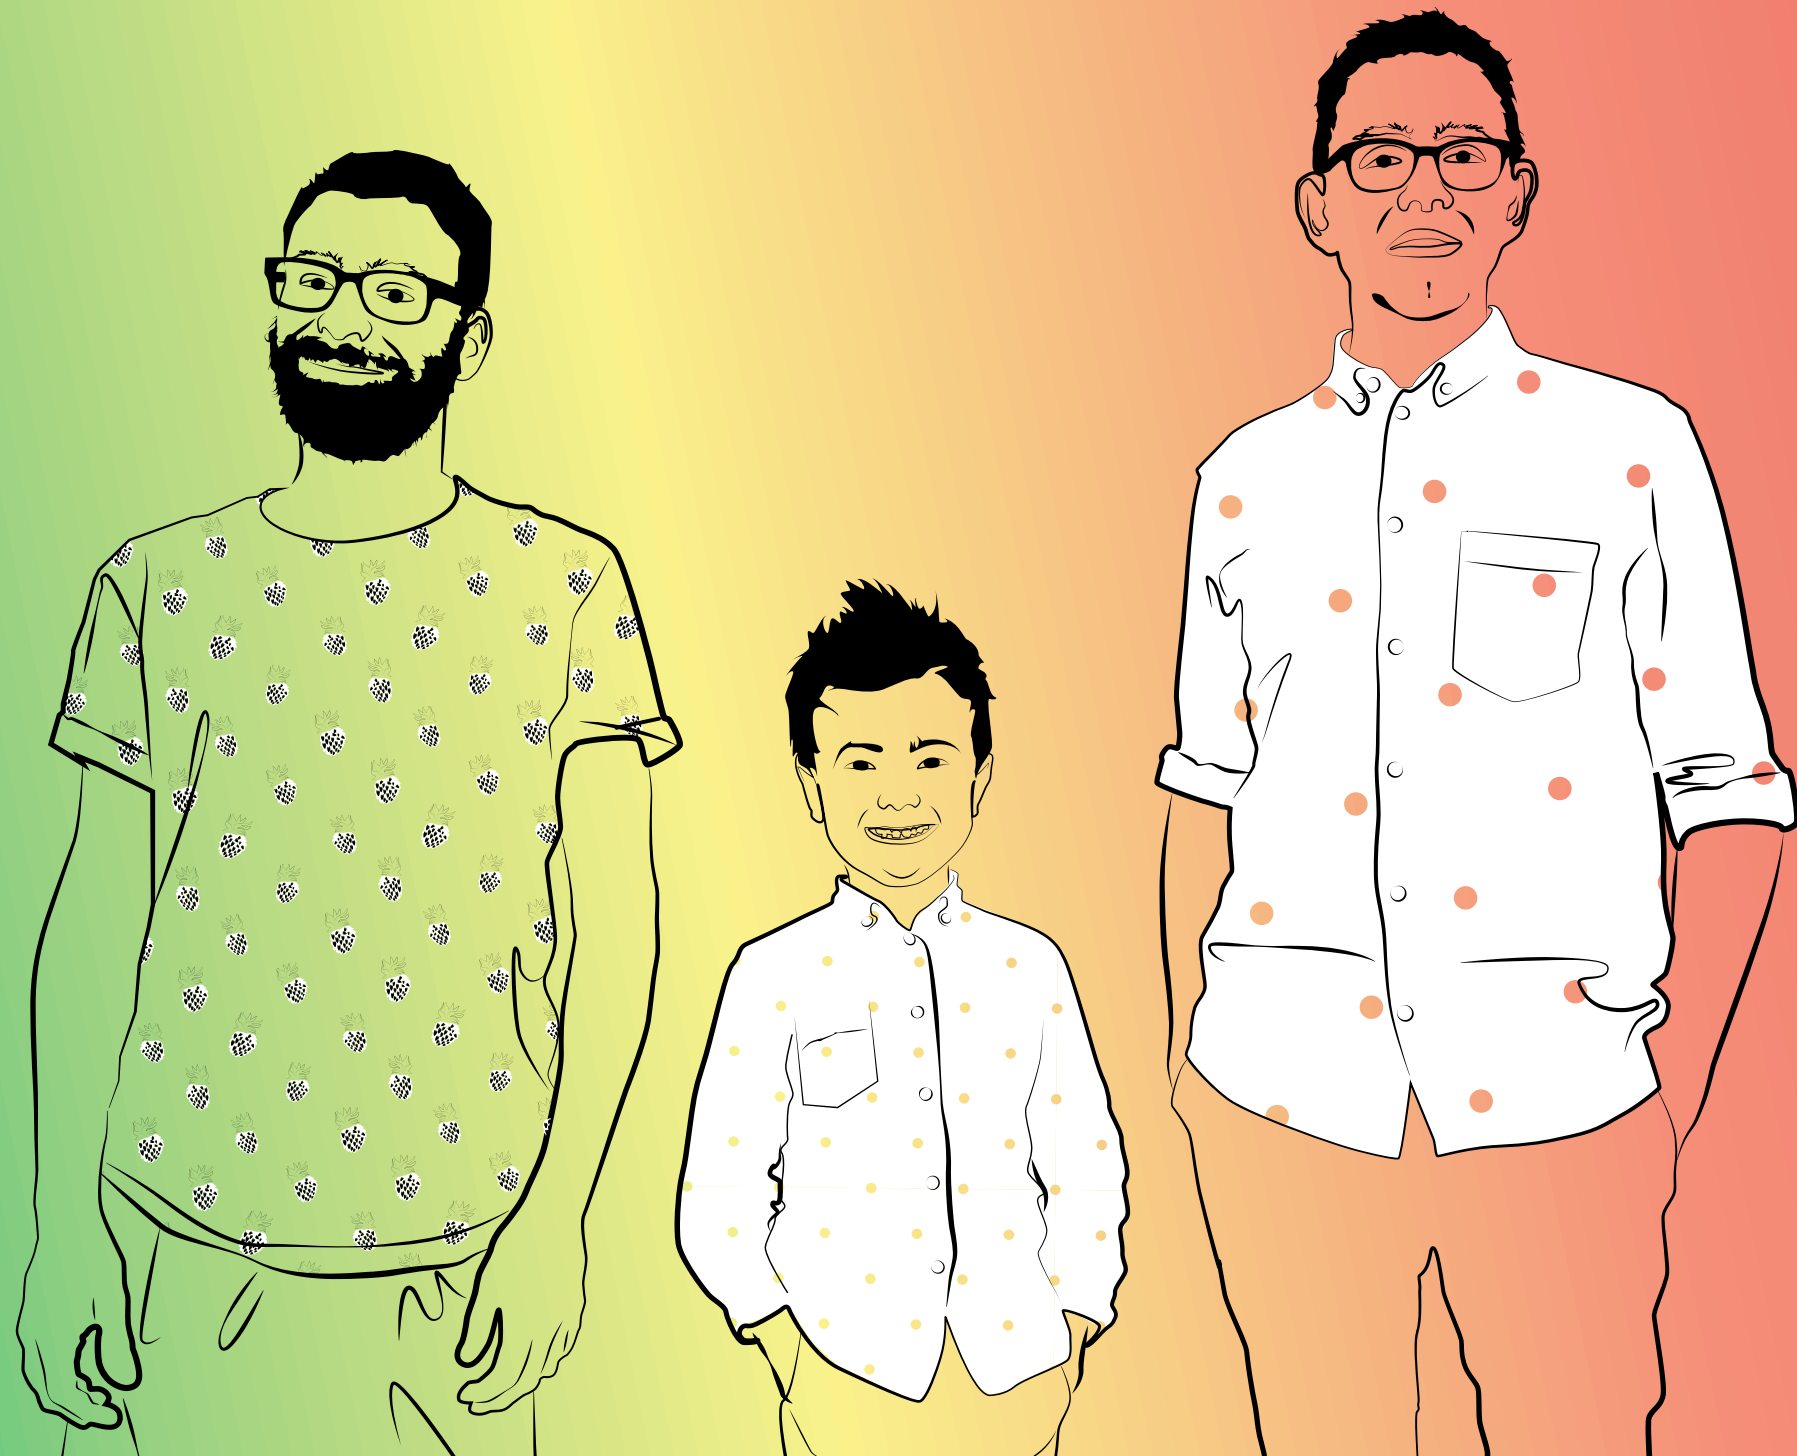

This book is dedicated to all children. As you can see the skin of all characters in the book does not have a specific colour. We made this on purpose!

We believe that families are various all over the world; family break ups occur everywhere; homosexuality, bisexuality, transsexualism exist in all types of society, and children and their families have RIGHTS, are EQUAL and deserve RESPECT for who they are, wherever they are!

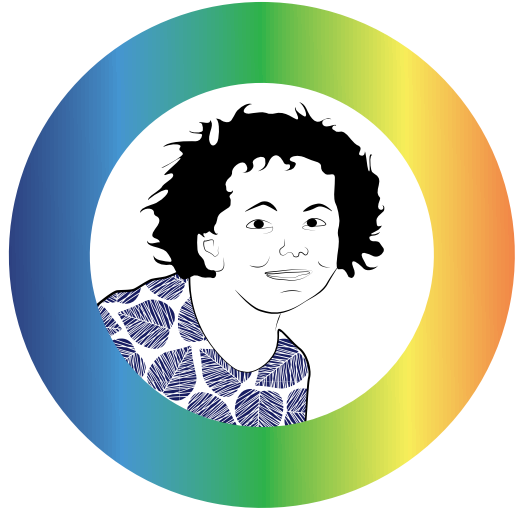

Hello! I am Mylo.

We *respect* all families

Sometimes our  
parents have a  
disagreement: they  
have a dispute.

They discuss and  
even break up.

But is not **our** fault!

I know  
someone who  
can help us  
and our families  
to resolve the  
dispute: **the**  
**mediator**

**MARIAN**

**VITTORIO**

Myla can we talk  
to the mediator?

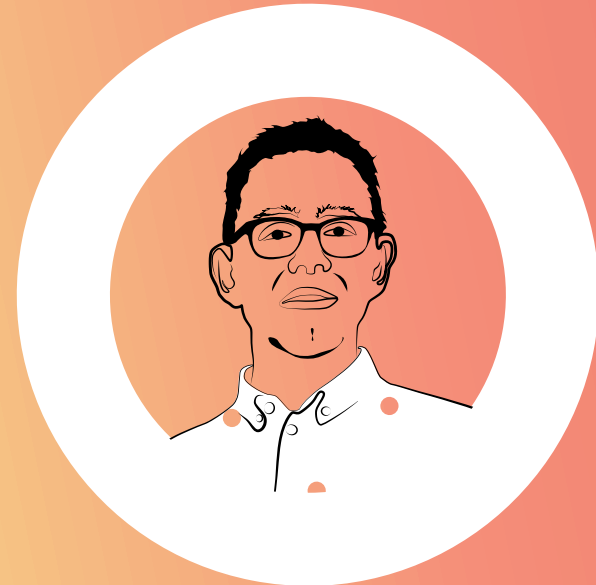

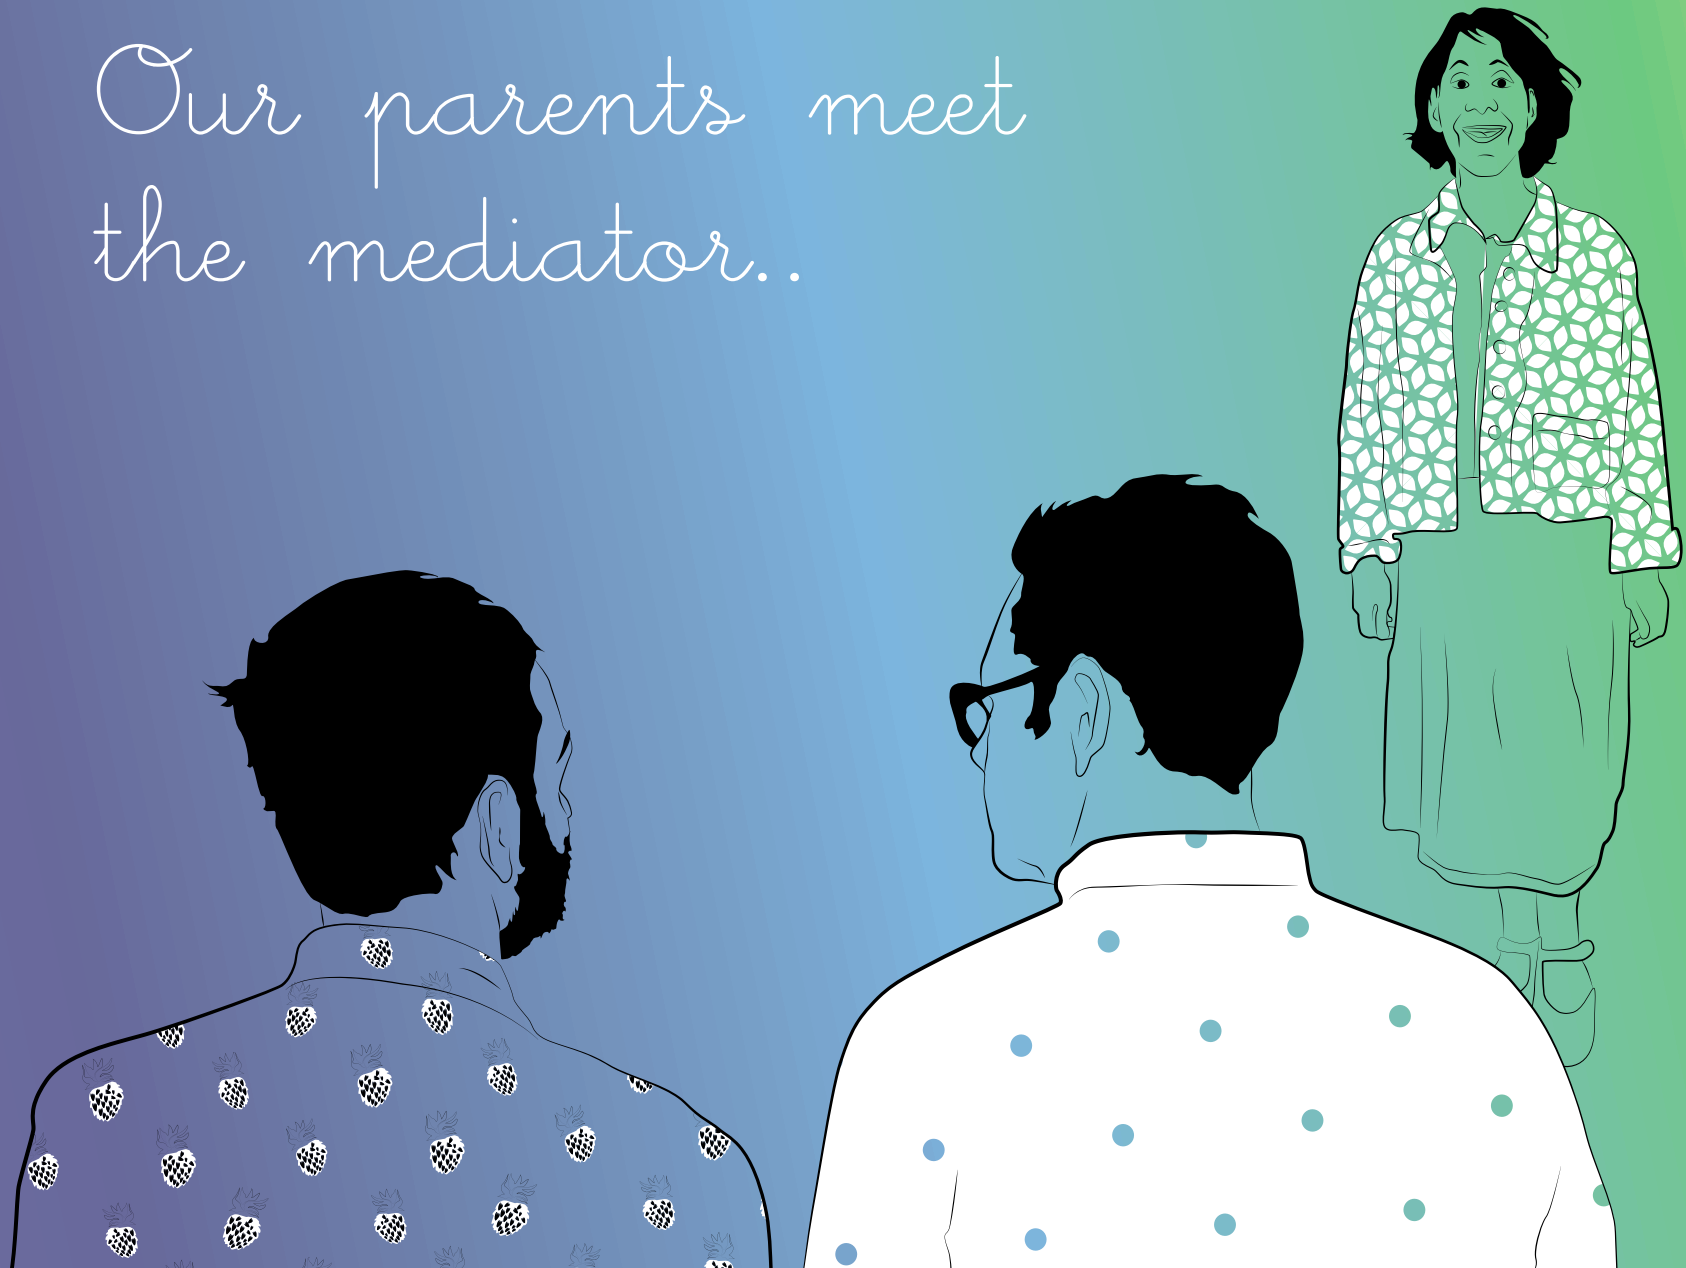

Of course  
you can

Our parents meet  
the mediator..

..several  
times.

They talk about reasons of the disagreement and will try to find a solution in our best interests
