9) **Argentina, 1960 - 1960 (Direccion Nacional de Estadisticas y Censos)**   **Survey ID:** 31

1,419 households   **Sample Duration:**   1 Year(s)

Notes: Annual household budget survey of 1419 families of the City of Buenos Aires. It was taken with the aim to update the weights of the cost of living index. It focused on industrial workers, dividing the sample into four categories (oficial, medio oficial, operario and peon). It appears that only families of four individuals (parents plus two children) were surveyed.

The publication has price indices and one average household budget, the basis of the cost of living index. Only one average budget is presented but there is an income breakdown of the sample in 5 categories.
