14) **Nigeria, 1955 - 1956 (Dept. of Statistics)**

Survey ID: 712

701 households

Sample Duration: 12 Month(s)

Notes: This urban survey covered wage-earners in the northern part of Nigeria, specifically in the two areas of Kaduna and Zaria. It covered three types of wage earners, namely Clerks, Artisans and Labourers. Data presented in the report that shows results by income is distributed by 'basic income' (only that received from principle employers of each member of the household) which is the reason why total income usually exceeds the maximum of each income division.
