

GII Survey Report

Selection: Spain.

1) Spain, (circa) 1913 - 1913

Survey ID: 2060

13 households

Notes: Survey of 13 families carried out in the city of Salamanca. Five of which were workers that attended night classes at the Science university. One was a random person who was willing to supply its information for a year. The author of the report also supplied information and the remaining 6 are from his students who also very willingly provided the information of their families.

The report with theoretical/methodological discussion and explanation of Engel's quets.

Individual expenditure data of the 13 budgets. No income data.
