

A vibrant photograph of a University of Sussex campus. In the foreground, a grassy hill slopes upwards. Several students are walking across the grass, some carrying bags. In the background, a large, modern building with curved, reddish-brown walls is visible. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. Large, green leaves hang from a tree in the upper left corner, partially obscuring the sky. A purple banner with white text is overlaid on the upper part of the image.

DESIGN YOUR FUTURE AT SUSSEX

US

UNIVERSITY
OF SUSSEX

A WORLD OF CHOICE

Whether you're interested in following an established career path or shaping emerging industries, we'll support you to explore, connect and flourish at Sussex and beyond.

From global brands and governments to startups, non-profits and social enterprises, you'll benefit from our established links to major employers. And with opportunities to build relationships and gain experience both within and outside of your studies, you'll develop the skills and expertise to get you where you want to go.

HONORARY ALUMNI – MR NOEL TATA

Mr Tata, who studied Economics and graduated from the University of Sussex in 1978, was presented with his honorary degree by Vice-Chancellor Professor Sasha Roseneil in Mumbai, in January 2025.

"My time studying at Sussex was a rich and stimulating intellectual experience that had a formative influence on me. It is a privilege to be presented with an honorary degree from the University of Sussex and I would like to thank Sussex for this recognition."

SARTHAK

Sarthak studied MSc Engineering Business Management. Sarthak is now living and working in London, and has founded app-based multi-network mobile service, FlexiFone.

"Entrepreneurship felt like a significant aspect of the Sussex experience – I liked that I could attend networking events and work on my own personal development alongside my studies.

I had the software engineering skills to develop the FlexiFone app, but Sussex provided the support to develop the concept. Ideas Lab helped me to identify problems, approach customers and pitch more effectively, while the Summer Accelerator offered sessions on areas like marketing, financial planning and team building.

Developing these skills has also helped me to feel more confident in writing business plans and developing funding applications, which recently helped me to secure a prestigious development grant from Innovate UK."

“

The early stages of your career are the perfect time to take a risk and start something new.

employers at careers fairs, insight visits and more

“

The University really goes the extra mile to ensure that students are well-equipped to pursue their career goals.

“

Sussex played a pivotal role in preparing me for a career where media can drive meaningful social impact, and I am grateful for that foundation.

PRIYAL

Priyal studied BSc International Business and is now working as an Analyst at Ernst & Young.

“The mentoring programme has been invaluable. I was paired with a mentor who had extensive experience in my field of interest, which gave me a clearer understanding of the industry. Having a mentor to turn to for support and guidance has been instrumental in my personal and professional growth.

The careers and entrepreneurship events have been a game-changer for me. From job fairs to networking events, these opportunities have allowed me to connect with potential employers and industry professionals. I've attended workshops on CV building, interview skills, and personal branding, all of which have been instrumental in preparing me for the job market.”

RWITOBAN

Rwitoban studied MA Media Practice for Development and Social Change and now works in the UK as a Digital Communications Executive.

“The course's practical focus on media production equipped me with hands-on skills that directly apply to my current role. The supportive learning environment and expert faculty not only expanded my theoretical understanding but also gave me the confidence to navigate the professional world.”

MAANYA

Maanya graduated in MSc Marketing and Consumer Psychology and is working in the UK as a Senior Researcher for an insight and strategy studio.

During her studies, Maanya worked part-time as a Student Ambassador, Business School Mentor, and a Social Programme Coordinator.

"I had the privilege of serving as a student mentor, offering assistance in areas such as time management and essay planning to help peers thrive academically.

During my year at Sussex, I also attended several cultural events and career fairs which really enriched my time here and served as a great way to meet new people."

“

Sussex is committed to student wellbeing and development and offers academic support to all students.

SIDDHARTH

Siddharth studied MSc Global Supply Chain and Logistics Management and is now working in procurement in the UK.

“

The support and opportunities provided by Sussex – from mentoring and career events to alumni masterclasses and the guidance of Success Advisors – have been instrumental in enhancing my academic journey and my professional outlook.

"One of the most impactful features has been the guest lectures, which have offered invaluable insights into the current demands and challenges faced by the industry. These lectures served as a bridge, connecting theoretical knowledge with practical application, and helped me develop a more nuanced understanding of the subject matter."

MANASI

Manasi studied MSc Marketing and Consumer Psychology and graduated in 2025. During her time at Sussex, she worked as a Digital Content Creator, producing and filming content for the University's social media channels. Manasi is now working in the UK as a Communications Coordinator.

"During my studies, I worked as a Digital Content Creator. There was a lot of freedom there and I would say that has been a solid learning opportunity. The work was exciting and also quite flexible around my studies."
