Progress Update 2019

HR Excellence in Research - University of Sussex Concordat Implementation Plan 2017 – 2021

Progress summary: of a total of 44 actions (6 new following the CROS 2017 report):

- 16 – Actions completed / on track. Metric ambitions may not have been met and some elements may be rolled forward
- 10 - Actions paused for significant period of time due to institutional refocus/staff turnover/vacancies but will be rolled forward
- 13 - Actions where some progress may have been made, but are being put on hold going forwards as currently “orphan” / no capacity for pursuing at this time
- 5 – Actions superseded by other developments

NB – RSO post was vacant for ~ 1 year (Feb 2018 to Jan 2019)

(A glossary of terms is provided at the end of this document)

<td>HR, RSO, Schools, Relevant Committees</td>
<td>Scope a comprehensive 'Researcher Development Strategy' to set out the commitments, expectations and provision for supporting researchers across the whole research career span</td>
<td>Researcher Development Strategy defined and published. Associated business case agreed and delivery structures implemented.</td>
<td>Sep 2019</td>
<td>Update: The RSWG undertook a Researcher Development Strategy session on 9th Oct 2017 and fed all outputs, including a &quot;Principles for Researcher Development&quot; document (that covers the whole research career span), into parent committees (the Research and Knowledge Exchange Committee in Oct 2017; and the People and Organisational Development Committee in November 2017). Issues: Time-wise this overlapped with the &quot;Discussing&quot; and &quot;Consulting&quot; phases of the developing Sussex 2025 Strategy, and the outputs were incorporated, at high level, into the new University strategic framework which was launched in July 2018. Going forwards: Through 2018-19 the high level ambitions of the strategy are reducing to specific workstreams and deliverables, however a specific Researcher Development Strategy has yet to be agreed (exacerbated by the fact the PVC-Research stepped down in Sep 2018 and the post has been de facto vacant since then). Action updated and rolled forward into 2019-21 plan (Action point 3)</td>
<td></td>
<td></td>

<tr>
<td>2</td>
<td>1: Rec &amp; Sel</td>
<td>RSO</td>
<td>Review alternative approaches to fixed-term contract management implemented at other HEIs and broader sector. Produce report and recommendations based on review.</td>
<td>Review conducted and report and recommendations received and considered by RSWG and Parent Committees. Subsequent actions identified and agreed.</td>
<td>Jul 2018</td>
<td>Issues: Due to vacancy in RSO position, work only began summer 2019. Going forwards: RSO preparing report Autumn 2019 to be put forward to committees in Spring 2020. Action updated and rolled forward into 2019-21 (Action point 4) and into the Institutional Athena SWAN action plan</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>1: Rec &amp; Sel</td>
<td>RSO, Schools, PIs</td>
<td>Increase awareness and uptake of start of contract discussions by: Communicating to Schools regarding current level of take up and benefits of discussions reported by researchers Provide examples of Schools that have successfully implemented start of contract discussions. Include guidance for start of contract discussions in new PI leaflet (action point 4)</td>
<td>Increased uptake of start of contract discussions as measured by repeat of the 2016 survey questions, double to 60% by May 2019, increase to &gt; 90% by May 2021</td>
<td>May 2019</td>
<td>Issues: Due to RSO post being vacant for ~ 1 year, limited actions progressed on this item. Update: Guidance on start of contract discussions incorporated into new PI leaflet, but no active outreach/communication work with Schools undertaken. 2019 data: Unfortunately, lack of action is reflected in the metrics of the 2019 Biennial Researcher &quot;Pulse&quot; survey: of the 63 people recruited in the last 2 years, only 16 (25%) stated they had a start of contract discussion; 34 (54%) did not; 13 (20%) did not recall or did not complete this section. Going forwards: Action updated and rolled forward into 2019-21 (Action point 4) including elements from action point 4 below</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>1: Rec &amp; Sel</td>
<td>RSO, HR</td>
<td>Production of leaflet for PIs on key information and resources for research staff management. Leaflet to be given to PIs at point of receiving shortlisting documentation when recruiting a researcher. Hardcopy in 2017, with pdf available on PI webpages and in e-recruitment once University system migrated.</td>
<td>Leaflet developed, approved by RSWG and HR Committee and embedded into recruitment processes. Increased uptake of start of contract discussions (as per action point 3). Positive qualitative feedback from PIs (e.g. through focus group/practice sharing). 25% increase in proportion of respondents citing local induction as useful/very useful in CROS 2019</td>
<td>Sep 2017</td>
<td>Update: Guidance leaflet produced and is sent to recruiting managers when shortlisting for Research Fellow posts Pfd available online via PI page: <a href="http://sussex.ac.uk/staff/research/com">http://sussex.ac.uk/staff/research/com</a>, however e-recruitment system not yet deployed (but those involved in doing this are aware of the PI leaflet) Issues: Due to RSO post being vacant for ~ 1 year no focus groups / practice sharing events undertaken with PIs, and no follow up/encouragement for PIs to use the leaflet 2017 &amp; 2019 data &amp; interpretation: In the preparation of this 2 year update, a mistake was discovered in the 2015 CROS local induction data. The number cited for respondents saying they found their local induction useful/very useful (~52%) was actually a duplicate of the Departmental</td>
<td></td>
<td></td>

</table>
1: Rec & Sel
Develop factual document to provide information and guidance relating to pros/cons F-T vs indefinite contracts to be hosted on HR policy section of website.
Communications to those invited to transfer to indefinite contracts as part of annual review updated to include link to the information document.

5

1: Rec & Sel
Document published on HR website and linked from Research Staff and PI webpages communicated to Researchers included in PI leaflet.

HR and RSO

Sep 2017

Outstanding items on this rolled into 2019-21 (Action point 5)

2: Rec & Sel
In autumn 2017 host practice sharing event for schools regarding processes for visiting research fellows. Meeting to include representation from School Managers/administrators, HR, Research Development. In autumn 2017 host focus group for current visiting research fellows to hear about experiences and any challenges encountered.

RSO, School administrators, Research Development, HR, Visiting Fellows

Report of meetings and recommendations to address key issues considered by RSWG and parent committees. Actions identified and agreed. Implementation of actions in academic year 2017/18

Jul 2018

Update & Issues:
Initial meetings held between RSO and HR, however due to staff turnover in both RSO and HR this action remained unattended / dormant until summer 2019. New staff influ in HR and new University strategy have this as lower priority item with HR than previously.

Going forwards:
Action put on hold – Orphan item. Will be re-addressed as part of New Concordat gap analysis and potentially link with the Institutional Athena SWAN action plan.

5

1: Rec & Sel

7

1: Rec & Sel

Institutional alignment to OTM-R reviewed by HR. Report and recommendations considered by RSWG and parent committees.

HR

Dec 2017

Comments/Questions
Discussed at Jan 31st 2018 meeting of RSWG. OTM-R checklist should be reviewed and signed off by the People and Organisational Development Committee. (HR to Action)

Going forwards:
Action put on hold – insufficient capacity to pursue at present. Will be re-addressed as part of New Concordat gap analysis.

7

1: Rec & Sel

8

2: Rec & Val
Explore initiatives/mechanisms for enabling researchers to generate independent research outputs and demonstrate independent research leadership:
- Research HEI best practice
- Generate range of costed options to put forward into University planning process.

RSO, RSWG, Reps

Preferred mechanisms identified and budget agreed as part of Researcher Development Strategy (action point 1).

Jul 2020

Update & Issues:
Due to different demands on RSO time, the RSO post being vacant for ~ 1 year, the University re-aligning for new Strategy (and the uncertainty around Brexit) - no actions progressed on this item.

Going forwards:
Action put on hold – Orphan item. Will be re-addressed as part of New Concordat gap analysis.

8

2: Rec & Val
Account for research staff role progression (i.e. promotion) in grant proposal budgets where appropriate and allowed by funder. Introduce a specific consideration of this into the bid costing process.

Research Development

Pis routinely asked about researcher progression when costing proposals. Progression of named researchers is routinely considered into proposals. 50% more externally funded researchers applying for promotions

Dec 2017

Update & Issues:
Item discussed with Head of Research Development Jan 2018, however possible implementation not carried through due to staff turnover.

Going forwards:
Action put on hold – Orphan item. Will be re-addressed as part of New Concordat gap analysis – especially as funders may be more explicit in terms of seeking for HEIs to include this in proposals as they develop their new Concordat implementation plans.

9

2: Rec & Val

10

2: Rec & Val

Explore options for specific training packages for Pis managing postdoctoral staff and enhance marketing of existing provision. Specifically:

SDU, RSO, Pis

- University plan and investment into PI management development activity as part of Researcher Development Strategy (action point 1).

Sep 2019

Update & Issues:
Exercise to research HEI best practice performed, however ability to develop and deploy plans put on hold due to development of new strategy and staff turnover in both HR (SDU) and RSO – see action point 1.
Research HEI best practice in PI development and use outputs of PI event and focus groups with PIs and outputs of Head of School appraisal reports to conduct training needs analysis.

- Map existing SDU provision to PI needs and develop tailored promotional communications/materials to enhance PI engagement with existing programmes.
- Identify gaps in PI provision and develop cost plans for additional training/development activity to be considered in University Planning exercise.

By the end of academic year 2018/19, 25% more PIs attending existing SDU courses (as measured by attendance figures) and providing positive feedback (as measured by post-course evaluations and staff survey).

- Research Fellows report that they are well supported by their managers (as measured by standard questions in CROS and UoSx Staff Survey).

Universities Planning exercise.

Identify gaps in PI provision and develop and cost plans for additional training/development activity to be considered in University Planning exercise.

Research Fellows report that they are well supported by their managers (as measured by standard questions in CROS and UoSx Staff Survey).

RAO, RSWG, HR

Increased promotions applications from RFs, 50% increase in RF promotion applications.

Success rates in alignment with other faculty groups

Updated:

- 2017 successes celebrated in newsletter, and Information about RF promotions included in PI leaflet and on PI webpages, and e-mails were sent out to PIs from the RSO at the time of the promotion round.

How to access and report relevant PI training and satisfaction data will be rolled forward. Action updated and rolled forward with elements in 2019-21. Action points 3, 6

Data regarding engagement of established academics on OD “Academic Promotions” course:

Unfortunately, current OD systems do not allow filtering for whether a participant is a PI or not, and feedback from courses is collected anonymously so this data cannot currently be reported. However, analysis of the 3 iterations of the Academic Promotions workshop run on Oct 2017, Nov 2017 and Nov 2018 indicate that of the 65 attendees, 49 were established academics (Lecturer, Snr Lecturer, Reader, Prof) who might well be PIs, and would be able to share their knowledge from the course with their Research Staff.

2019 biennial survey data & interpretation: The 2019 Summer “Pulse” Survey had 2 specific question regarding how well RFs felt supported by their managers: To what extent do you agree that 1) You are well supported by your manager; 2) Your manager has all the training they need to effectively support your career development. Of the 100 people that completed these questions those that agreed/strongly agreed with the statements were 75% and 58% respectively; those that disagreed/disagreed strongly were 21% and 36% respectively (the remaining people preferred not to state). Thus whilst most people felt supported by their managers, there is still scope to improve the training and support offered to manager in this area.

Going forwards:

How to access and report relevant PI training and satisfaction data will be reported forward.

Going forwards:

How to access and report relevant PI training and satisfaction data will be rolled forward. Action updated and rolled forward with elements in 2019-21. Action points 3, 6

Data regarding engagement of Research Fellows with Promotions” workshop:

Two ‘Aiming for Promotion’ workshops for research staff organised by the RSO and run in Oct (24 bookings; 13 attendees) and Nov (18 bookings; 12 attendees) 2017 included a talk from an RF that was promoted in the previous year - with very positive feedback.

- 3 iterations of the Academic Promotions workshop run on Oct 2017, Nov 2017 and Nov 2018 indicate that of the 65 attendees, 49 were established academics (Lecturer, Snr Lecturer, Reader, Prof) who might well be PIs, and would be able to share their knowledge from the course with their Research Staff.

Going forwards:

How to access and report relevant PI training and satisfaction data will be reported forward.

### 12: Rec & Val
**Spotlight Symposium to showcase impact of postdoctoral research to form one of the sessions at Sussex Impact Day 2017.**  
1.5 hour session with short postdoctoral research fellow impact talks from research areas spanning the variety of disciplines at Sussex. To be complemented by Spotlight profile posters in the exhibition space. Speakers to receive training session on impactful research communication in advance of the event. Spotlight profiles of speakers and applicants to be developed for release from Autumn 2017.

<table>
<thead>
<tr>
<th>RSO, Research Fellows, Research Quality and Impact Team</th>
<th>Positive response to call for applications for presentations (Year 1 target to exceed 10 applications). Good attendance figures from the session (Year 1 target to exceed 30 people) and positive feedback from speakers and attendees as evidenced by post session feedback forms. Positive effect on the hit rate of Spotlight webpage and profiles. External coverage of Sussex researchers as a result of the event.</th>
<th>Jun 2017</th>
</tr>
</thead>
</table>

**Update:** Positive response to call to be "Spotlighters": 16 applications received, and 8 selected to be speakers. Two training session completed for this cohort with very positive feedback. Event audience 40-50, and whilst no feedback forms used at the event, positive verbal feedback received.

The announcement and call for speakers for the Symposium had the desired effect of creating an uplift in the hit rate on the Spotlight webpages, returning the highest number of unique views per month (65 in March and 99 in April 2017) since the launch of the pages in Nov 2016.

All applicants were invited to interview for profile development with all 8 speakers and 7 other applicants taking up the opportunity. Spotlight profiles collected, highlighted within the Sussex Researcher newsletter and posted on the RSO web pages through into 2019. A number of profiles (at least 7) picked up and posted on external-facing web pages e.g. [https://www.sussex.ac.uk/news/all?page=58&id=43690](https://www.sussex.ac.uk/news/all?page=58&id=43690) and [https://www.sussex.ac.uk/news/all?page=18&i](https://www.sussex.ac.uk/news/all?page=18&id=48135).

**Action closed.**

*Some elements go forward into 2019-21 (Action point 7)*

### 13: Rec & Val
**Develop a template for Research Staff to self-record teaching activity as an interim measure in lieu of new student record system being delivered.**

Consideration of template for feedback from students supervised by research staff. RSWG to make formal recommendation to student record system project to ensure incorporation of teaching records for RFs into the system specification.

| Phase 1 & 2: RSWG and RSO | Phase 1: Recommendations for system requirements communicated by RSWG to student record systems project. Phase 2: Template(s) developed, communicated and in use by Research staff. Phase 3 New system incorporates RFs teaching responsibilities. RF automated teaching transcript available | Phase 1: Jul 2017 |
| Phase 3: Student Records Project Team | --- | Phase 2: Jul 2018 |
| --- | --- | Phase 3: Jul 2021 |

**Update and Issues:**

**Phase 1:**
Deputy Director of Research Staff Office input into discussions of SAAT team (team tasked with upgrading of University student records system), however the entire programme was put on hold. It has now been rolled in to "The Student Lifecycle" project being deployed within Phase One of the Sussex 2025 strategy.

**Phase 2:**
As an interim measure, a “Postdoc Teaching (and Supervision) Record” template and certificate was developed within, and approved by the leadership team of, the School of Life Sciences.

Unfortunately, due to staff turnover, the template was not immediately put into routine use, and institutional knowledge of this form was temporarily lost. It was rediscovered in March 2019, and RS invited to start using it for self-recording teaching activity going forwards, with RS requesting the certificate from the School as/when appropriate. A meeting was held with the PVC-Education & Students in Spring 2019 to discuss the allocation, tracking and recognition of teaching that Research Staff undertake across the University. She was open to the points being raised and there is an outstanding action for the RSO to organise a meeting involving the PVC-R, DRKEs and DLTs across the University to raise and address their issues.

**Phase 3:**
Awaiting new system.

**Actions:**
As work on this action point highlighted an issue around maintaining institutional knowledge due to staff turnover, a new collaborative workspace (the institution uses "Box") was created for the RSWG committee in the Spring of 2019, with all information pertaining to the HREiR action plan being collated there as/when possible to overcome such issues going forwards.

**Going forwards:**
*Action updated and rolled forward into 2019-21 (Action point 8)*

### 14: Rec & Val
**Include question(s) in CROS 2017 to explore whether postdoctoral researchers still perceive that they are treated/perceived as students rather than staff by other colleagues.**

Establish extent of any issue across the University. If patterns emerge follow up with focus groups to explore the underlying issues and identify potential solutions to address.

<table>
<thead>
<tr>
<th>RSO, Research Fellows</th>
<th>Clarity on the extent that this is a perception of research staff vs other colleagues. Understanding of the underlying behaviours that contribute to these perceptions. Actions identified as appropriate to address any specific issues at School/University levels. Responses to repeat of questions in CROS 2019 demonstrates positive improvement.</th>
<th>May 2019</th>
</tr>
</thead>
</table>

**Update:**
No specific questions on this added into CROS 2017, however results indicate positive improvements with respect to equal treatment with other staff groups vs 2015.

**2019 data & interpretation:**
Specific question on this were placed in the Biennial Researcher “Pulse” survey in the summer 2019. The vast majority of responders agreed/strongly agreed that Research Staff are both perceived and treated as staff (not students) by the institution (70% and 70% respectively) and their managers, (82% and 74% respectively). Analysis of the freetext comments linked with the minority of people that disagreed/strongly disagree suggest there are still some pockets of misunderstanding/bad practise present in the institution (20% and 24%) and by managers (13% and 21%) that need to be investigated further.

E.g. “Someone literally using the phrase “postdoctoral students”. Unfortunately the data set is small, but there do not appear to be any underlying patterns to the responses.
• communications to Schools to ensure that eligibility of Research Fellows, Academic Schools. Provide report and recommendations to the RSWG of outcomes and disseminate to relevant University Committees, Heads of School and School Managers.

• incorporate reference to Research staff/team management.

No allocated workspace: 4% (9 individuals) to 3% (3 people) - ~ steady.

Hot desk environment: 6% to 19% - increase

Workspace within a shared office: 70%; 56% - reduction

Own Office: 17% to 7% - reduction

This latter statistic is particularly worrying: whilst this number is low in absolute terms, it could lead to frustrations and difficulties in terms of engaging with the broader school/department, and contribute to mental health and wellbeing issues for the individuals concerned.

Numerous, mainly negative, free text responses were supplied in both surveys (e.g. "Hot-desking is not generally conducive to effective research and adds an additional level of stress to be dealt with on a daily basis") including some that cite potential health and wellbeing risks (e.g. "Lab space is so small we now work evenings and weekends to be able to do our work."); "Due to the age of the Chichester 3 building we have had issues with water leakage through the roof..."); "Environment is ‘converted’ from existing lab space. Sink and fuse boards remain in the office space..."); "Out of date working environment. Full of asbestos panels. No air conditioning despite summer temperatures exceeding 30C in the lab...")

**Going forwards:**
Unfortunately, these data reflect the increasing demand on space at the Institution as a whole. Actions in the future will need to ascertain whether these issues are specific for Research Staff, or whether they are affecting staff more broadly across the institution.

**Action updated and rolled forward into 2019-21 (Action point 11)**

---

2: Rec & Val

Incorporate recognition of research staff management into academic promotions processes by:
- RSWG recommendation to APATC to review promotion criteria to include management of research staff/teams.
- Briefing for members of promotions boards on the value of research staff management for career progression.
- Provide case studies of good practice in research staff management to support promotion applicants.
- and demonstrate how research staff management maps across other aspects of the promotions criteria.

Promotions criteria updated to include specific reference to Research staff/team management.
Promotions boards briefed on criteria
Promotions applications from Research Staff Managers make reference to success measures in managing their broader research teams.

Date last updated: 19 November 2019

**Update & Issues:** Specific questions around space included in CROS 2017. Analysis completed and disseminated via RSWG through to parent committees.

No further action taken until the summer of 2019 due to absence of Research Staff Officer for most of 2018.

Review of funder expectations not yet conducted and specific space report not prepared, however questions about space repeated in the 2019 Biennial Researcher “Pulse” survey.

**2017 & 2019 data & interpretation:**
Overall there has been no improvement, and some decline, in terms of the space allocated to Research Staff completing the surveys.

Responses to questions regarding allocated space in 2017 and 2019 respectively:

- **Own Office:** 17% to 7% - reduction
- **Workspace within a shared office:** 6% to 19% - increase
- **No allocated workspace:** 6% to 3% (3 people) - ~ steady.

This latter statistic is particularly worrying: whilst this number is low in absolute terms, it could lead to frustrations and difficulties in terms of engaging with the broader school/department, and contribute to mental health and wellbeing issues for the individuals concerned.

**Going forwards:**

- Due to different demands on RSO time, the RSO post being vacant for ~ 1 year, no action taken on this item before Autumn 2019.

**Action put on hold. Orphan item. Will be re-addressed as part of New Concordat gap analysis and/or within Action point 3 in 2019-21 action plan.**

---

Audit of University annual policy/process related communications to Schools to ensure that eligibility of Research

Communications updated where necessary. Research Fellows aware of eligibility and processes of key annual initiatives (appraisal, pay review).

**Update & Issues:** Due to staff turnover in both HR and RSO, this action has been delayed.

**Action closed.**

</tbody>
</table>

- Data regarding ECRs and ROF (Research Opportunities Fund): The ROF is designed to provide initial funds for faculty to stimulate new interdisciplinary ideas and research projects (Max value £1.5K).
  - Between May 2017 - Sep 2019: 6 ECR proposals were funded. Following on from this funding, one ECR has submitted 5 bids (seeking funding of between £43K and £890K) as either PI or Co-I. There are another 6 bids in preparation by the various ECRs seeking between £10K and £250K. |

- Data regarding ECRs and RDF (Research Development Fund): The RDF is designed to develop activities enabling substantive external research proposals – normally a pilot study or Proof of concept activity (value £5K-£30K). |

Link with Sussex Innovation Centre (SINC) to source potential Physical Sciences.

Come together to jointly solve business problems. Based on the introduction of 'Hack Days' for researchers and businesses to increase researcher engagement with industry/other sectors. Fellowship/permanent faculty positions.

Development programme for RFs aspiring to leadership development. Best practice review followed by establishment of leadership development programme for RFs aspiring to fellowships/permanent faculty positions. Leadership development programme funded and implemented as part of the Researcher Development Strategy (action point 1).

Leadership development programme funded and implemented as part of the Researcher Development Strategy (action point 1). Interest in the programme as demonstrated by applications to participate. Positive feedback from participants as demonstrated by end of course evaluation survey.

RSO, RSWG, Staff Development Unit (SDU) Leadership development programme funded and implemented as part of the Researcher Development Strategy (action point 1).

RSO, RSWG, Staff Development Unit (SDU)

Research Development Team, RSO

25% more research proposals submitted with Research Fellows as either PI, Co-I or Researcher Co-I.

Dec 2018

Update & Issues: No action taken on this due to staff turnover.

Going forwards:

Action put on hold. Orphan item. May be re-addressed as part of New Concordat gap analysis and/or within Action point 3 in 2019-21 action plan.

22 3 / 4: Supt & Car’ Dvp1

Best practice review followed by establishment of leadership development programme for RFs aspiring to fellowships/permanent faculty positions. Leadership development programme funded and implemented as part of the Researcher Development Strategy (action point 1). Interest in the programme as demonstrated by applications to participate. Positive feedback from participants as demonstrated by end of course evaluation survey.

RSO, RSWG, Staff Development Unit (SDU) Leadership development programme funded and implemented as part of the Researcher Development Strategy (action point 1).

Jul 2020

Issues: As with action point 1, the development of a leadership development programme is has been delayed and will be addressed as the high level ambitions of the new university strategy are reduced to specific workstreams and deliverables through 2019-20.

Update: In the interim, a “Preparing for Leadership” ½ day workshop was created, delivered and well received multiple times through 2018-19. To reach a wider audience and offer more flexibility, the materials have been restyled and delivered in a webinar format, and into an e-learning module on the UoSx system (Canvas) that is being launched in the Autumn of 2019.

Going forwards:

Action updated and rolled forward into 2019-21 (Now incorporated into Action point 3)

23 3 / 4: Supt & Car’ Dvp1

Increase researcher engagement with industry/other sectors by the introduction of ‘Hack Days’ for researchers and businesses to come together to jointly solve business problems. Base on successful model already trialled in School of Mathematical and Physical Sciences. Link with Sussex Innovation Centre (SINC) to source potential organisations. Couple with creativity and ideation training.

RSO, SINC, Two Pilot ‘Hack Days’ hosted and deemed successful via participant and organisation post-event feedback. Evidence of continued collaborations between researchers and Hack Day business partners

Jul 2018

Issues: As both the member of Research Staff that had organised previous Hack day events, and the RS Officer left the University (removing momentum, tacit knowledge, and industrial links) Hack days were not delivered.

Update: However, a variety of activities to encourage researchers to consider careers outside of academia and think about working collaboratively / creatively / entrepreneurially with industrial partners were undertaken including:

- "Creativity and Innovation Skills for Career Success" workshop delivered summer 2017 (17 registrants; 13 attendees)
- "Careers and Enterprise Day" (involving members of SINC, UoSx and panel of ex-researchers pursuing alternative careers) held on 14 June 2018 featuring talks on enterprise, IP, and knowledge exchange (48 registrants, 21 signed in attendance).

Going forwards:

Action put on hold. May be re-addressed as part of New Concordat gap analysis, and with Action point 3 of the 2019-21 action plan - linking in with the emerging KEF plans and re-organisations regarding Sussex Innovation Centre at the University.
| No. | 3 / 4. Sup' & Car' Dvp1 | Enhance online provision for Research Staff Careers support including: Case studies of career paths, online career planning module. New and refreshed webpages with links to careers related information, resources and support. | RSO, Careers and Employability Centre | New/updated webpages published and content frequently used as evidenced by hit rates, bounce rates and other google analytics data. Improvement in proportion of researchers that state that they have developed career plans as evidenced by CROS responses – increase to >70% by 2019 | May 2019 Update: New (externally hosted) Career planning web tool launched (www.sussexresearchercareers.org) along with updated careers pages on the Research Staff site Autumn 2017. Web tool communicated to Research Staff (via newsletter, Reps and RSWG) as well as to Heads of School and DRKES – excellent initial interest – 474 views of new toolkit site Oct 2017. In addition to toolkit, online provision in the form of Careers webinars were created and delivered through 2018 and 19 with good levels of interest, attendance and positive feedback: “Career planning for Research Staff” Feb 2018 (30 registered, 24 attended); “Thinking creatively about your Career” held on Nov 2018 (33 registered, 17 attended) and Mar 2019 (22 registered, 15 attended) |}

| 25 | 3 / 4. Sup' & Car' Dvp1 | Develop a mentoring framework and supporting information/resources that can be customised for different areas of the University. Staff involved in mentoring (coordinators, mentors/mentees) to receive training to support roll out of mentoring framework. Mentoring to be recognised in workload allocation models. | SDU, Athena SWAN SAT, RSO, Mentoring Coordinator s, Schools | (i) Mentoring framework and accompanying resources published and adopted by Schools. (ii) 100% University mentoring schemes are operating under the mentoring framework. (iii) >80% of mentors and mentees enrolled in mentoring schemes report productive mentoring relationships via scheme evaluations. | Apr 2018 Update: Through 2017 mentoring framework developed, accompanying brochures for mentors/mentees/scheme coordinators created and “Mentoring” webpages developed and published (initially externally, then brought in-house under the Organisational Development web area: https://www.sussex.ac.uk/organisational-development/mentoring) Mentoring task group’s recommendations shared with University Leadership Group in December 2017, with Schools/divisions to put forward mentoring contacts if wishing to implement schemes. Due to staff turnover in RSO, hiatus in official launch/roll out of framework/scheme across the University However OD initiated soft launch of pan-University mentoring scheme in the Autumn of 2018 with good initial take up--particularly with mentor volunteers. “Effective Skills for Mentoring” workshop launched in 2018: 2 sessions run by RSO, with a further 7 by OD, with over 100 mentors trained. “Introduction of Become a Mentor - How to Get the Most from Mentoring” sessions in Mar 2019 at suggestion from mentors: 3 workshops run; 30 attendees. “Community of Practice for Mentors” introduced in Jan 19 to offer best practice development and peer supervision for mentors. 4 sessions run to date. Programme evaluation 18/19 underway. Initial responses (polling 50 participants from both academic roles and Professional services) show >90% of mentors/mentees have found the Programme positive, and would recommend it to colleagues Mentoring not currently incorporated into work allocation models. |}

<p>| 26 | 3 / 4. Sup' &amp; Car' Dvp1 | Explore enhanced links and collaborations with University of Brighton Researcher Development. Identify opportunities for hosting joint events and opening courses for booking by UoB researchers and vice versa. | RDO and University of Brighton Research Staff Ambassador | Minimum of 2 joint researcher development events established annually. Agreement reached regarding mutual access to researcher development workshops/events across | May 2019 Update: Pilot performed 2017, with 2 UoSwx workshops opened up to UoB researchers in the Autumn 2017. Discussed running a joint Spotlight event for Spring/Summer 2018, but difficulties encountered in terms of ability to progress matters in an agile fashion so efforts put on hold. |</p>

Content engaging as evidenced by low bounce rates. Researchers report improved knowledge of teaching opportunities/responsibilities as evidenced by CROS and feedback from Reps.
|               |                    |                    |     |             |
| 29            | RSO, Doctoral School | Raising awareness amongst research staff of the Sussex Junior Research Associates (JRA) scheme as an opportunity for supervisory responsibility: | Dec 2017 | 20% Increase in number of research fellows acting as supervisors for undergraduate JRA projects.
|               |                    | 1. active promotion of the scheme via newsletter, mailing list and forum |     |             |
|               |                    | 2. Email to Heads of School and Directors of - Research and Knowledge Exchange to encourage them to put Research Fellows forward to supervise JRAs |     |             |
|               |                    | 3. Inclusion of JRA scheme in teaching/outreach themed coffee morning |     |             |
| 30            | Athena SWAN SAT, RSO, HR | Evaluate success of University sponsorship of Daphne Jackson Fellowships and investigate alternative (in-house) options for offering fellowships for researchers returning from a career break. | Jul 2018 | Evaluation report of the University Sponsorship of Daphne Jackson Fellowships considered by SAT and University Executive Group. Future model for University sponsorship of returners fellowships is agreed, resource and implemented. New cohort of fellows successfully recruited.
|               |                    | Athena SWAN SAT, RSO, HR |     |             |
| 31            | HR, SDU            | Introduce a mandatory Equality & Diversity online training package for all members of Sussex staff. | Jul 2017 | All current staff have completed mandatory E&D training. Process in place to ensure new starters complete the training as part of probationary process.

**Update & Issues:**

1. Following discussion with Deputy PVC E&D the strategic priority has shifted towards support for current staff returning from leave, rather than recruiting new staff via Daphne Jackson Fellowships. The University will not sponsor further Daphne Jackson Fellowships beyond the current cohort, but will redirect efforts towards a new scheme to support those staff returning from periods of caring leave.

**Going forwards:**

- Action put on hold – insufficient capacity to pursue at present. Will be re-addressed as part of New Concordat gap analysis.

**2018 Baseline data:**

- There were 107 JRAs in 2018 with Supervisors from across all 11 Schools at the University. The majority of JRAs has established academics as their main supervisor (Lecturer: 30; Senior Lecturer: 22; Reader: 10; Prof: 36) however a few had Research Fellows (4) or Teaching Fellows (3) fulfilling this position.

**Going forwards:**

- A suite of actions are outlined in the 2019 Institutional Athena SWAN submission which are appended at the end of the 2019-21 action plan.

Specific actions emerging from the HREiR plan are closed. Watching brief on the Institutional Athena SWAN action plan.
| 32 | 6: E&D | Revise current policy for Research Fellows without PhD to enable them to progress up Salary Scale, where they have equivalent level professional experience to PhD qualification. | HR, Trade Unions | All Research Fellows without PhD qualification but with equivalent professional experience are on progressable grades and receive annual increments in alignment with other Research Fellows | Apr 2017 | Update: JNC agreed this change in February 2017. Increments backdated to October 2016. | Action closed. |
| 33 | 6: E&D | University engagement with Stonewall, expanded Athena SWAN process and other equality charters | PVCs for Equality and Diversity, Athena SWAN SAT, Equality and Diversity Committee, E&D Forum | University recognised as Stonewall Diversity Champion. All STEMM Schools retain or improve on their current Athena SWAN award. Non-STEMM Schools have submitted Athena SWAN applications or are working towards a submission. Longer term Equality and Diversity strategy articulated as part of the broader University strategy. | May 2019 | Update: Equality charters: The University joined Stonewall Diversity Champions programme in August 2018 and continues to advance in terms of Athena SWAN across the institution: - The University holds a Bronze Athena SWAN award. - All STEMM schools have Athena SWAN awards: 3 hold a bronze award – EngInf, MPS, Psy; with two others holding Silver - BSMS and Life Sciences - Non STEMM schools are working towards submissions and are represented on the University Athena SWAN SAT (self-assessment team) In addition, the University: - signed up to the Race Equality Charter in Dec 2018 and has committed to submit an application for an RE award - is in discussion with the Business Disability Forum regarding becoming a member of the Disability Confident Employer Scheme (starting initially by being recognised as Disability Confident Committed) | Action completed but desired outcome not achieved. Continues as an item in the Institutional Athena SWAN action plan | Action closed – however importance of the negative findings from this will be fed into the EDI unit, a watching brief maintained and there is the potential for more actions to arise. |
Longer term E&D strategy:
The University established an Equality, Diversity and Inclusion Unit in Feb 2018 to drive forward work in this area across the institution, publishing “Inclusive Sussex – EDI Strategy 2018-2025” in June 2018. This fed into, and forms a key component of, the wider Sussex 2025 strategic framework, with Inclusivity highlighted as one of the five core values: Kindness; Integrity; Inclusion; Collaboration; Courage.

Going forwards:
Action closed. May roll into new Concordat gap analysis/action plan with EDI unit taking lead.

34 6: E&D
Introduce an informal network for Researchers with caring responsibilities. To include regular informal meetings quarterly and an online forum.

RSO
Carers network established and has a regular core membership. Feedback positive from participants. Dec 2017

Update & Issues: This was discussed at Jan 2018 RSWG meeting, and due to the changes in staffing levels, it was agreed the RSO could not progress this action. As an alternative, it was suggested that the idea be raised with the EDI unit, as it was felt that such a network would be beneficial to all staff groups.
The action was referred to EDI who undertook surveys at School level, and focus groups with maternity returners.
Issues that arose included:
- Lack of available parking places for people undertaking flexible working. A Carers parking permit scheme has now been introduced with designated bays reserved to be free for carers until ~10am
- Facilities for breast feeding / expressing milk. The EDI unit is organising to publish map/information on this so staff aware of facilities

Going forwards:
A suite of actions are outlined in the 2019 Institutional Athena SWAN submission which are appended at the end of the 2019-21 action plan.
Specific actions emerging from the HREiR plan are closed. Watching brief on Institutional Athena SWAN action plan. May roll into new Concordat gap analysis/action plan with EDI unit taking lead.

35 7 Impl & Rev²
Run the Biennial CROS Surveys of Research Staff

RSO, Research staff community, Academic Schools
CROS 2017 completed with response rate of 41% or higher. Results communicated to Research Staff Community, Schools and relevant University Committees. Actions identified and incorporated into Concordat Implementation Plan
Sep 2017

Update:
CROS 2017 ran March 2017, with highest ever response rate of 63% (239 individuals). Report and recommendations disseminated to Schools, relevant committees and research staff in October 2017 and published on the Sussex CROS Webpage: http://www.sussex.ac.uk/staff/research/researchstaff/cros
Actions have been incorporated into additional points in plan – see points 39 onwards
CROS 2019 not run due to anticipated survey fatigue (internal Sussex staff survey run Autumn 2018 and results posted Jan 2019). RSO did however create and run a Biennial Researcher "Pulse" survey (comprising all CROS 2019 questions and additional specific ones for the University of Sussex) over the summer of 2019 to have a "touch in" with the wider RS community. As anticipated, response rate lower than with CROS 2017 (total of 107 responses initiated; 92 completed), but useful pulse/indicators available to help inform future direction/actions for RSO/University to support RS.

Going forwards:
Anecdotally Researchers have reported survey fatigue (general internal staff surveys taking place as well as Researcher-focused activities) so it may be difficult to maintain engagement with such comprehensive in-depth surveys in the future (especially as people report that they see no actions/consequence from some surveys).

Action updated and rolled forward into 2019-21 (Action point 1)

36 7 Impl & Rev²
Termly review of progress against implementation plan by RSWG

RSWG, RSO
Concordat Implementation plan regularly updated with progress. Successes are celebrated and disseminated and challenges/risks are identified and action taken to mitigate
Ongoing

Update & Issues: Action plan has been underlying driver for agenda items at RSWG meetings however with absence of RSO for ~1 year, on-going changes within the institution, this action plan being a long and complicated document, and committee members being volunteers whose contributions to the RSWG are not generally included in their workload allocation (this having limited time to contribute to RSWG activities), review of progress did not always take place.
As 2017-19 has been a particularly volatile period of change within the institutions (staff turnover; re-organisations, absence of PVC-R/champion at high level) risks may not always have been identified and even if they have it has not been clear how to link with relevant stakeholders / gatekeepers to gain support for mitigation plans.

Going forwards:
A suite of actions are outlined in the 2019 Institutional Athena SWAN submission which are appended at the end of the 2019-21 action plan.
Specific actions emerging from the HREiR plan are closed. Watching brief on Institutional Athena SWAN action plan. May roll into new Concordat gap analysis/action plan with EDI unit taking lead.
From Spring 2019 onwards, the RSWG secretary undertook a significant review and collated historical information/data into BOX area to facilitate updates and reviews as well as maintenance of institutional knowledge going forwards.

The rebuilding/expansion of the RS Reps community through early 2019, and revamping of the RSO newsletter over the summer of 2019 now allows more space to engage with the RS community and other interested parties, and celebrate the successes stemming from this action plan. Planned changes to the RSO web pages (to take place during 2019-2020) will help this also.

**Going forwards:**

To enable effective/simpler review of process of the implementation plan, and to ensure that each action is properly "owned"/resourced, the 2019-21 plan will be simplified – reducing the number of actions to ~14 – each having sub-actions within them for specificity.

RSO actively seeking to engage with wider group of decision makers/budget holders to raise profile of these activities going forwards – potentially made easier with the launch of the 2019 Concordat.

**Action updated and rolled forward (Action point 1 & 2)**

---

<p>| 37 | 7 Impl &amp; Rev | Explore mechanisms to track destinations of Sussex researchers to include: | RSO, HR, Academic Schools, Research staff | Report of potential options considered by RSWG. Actions identified and implemented. | May 2019 | <strong>Update &amp; Issues:</strong> Due to staff turnover and changing circumstances at the University, no action has been taken on this item. <strong>Going forwards:</strong> Action put on hold – insufficient capacity to pursue at present. The <strong>Action point 1</strong> Institutional Athena SWAN action plan has a different, but related action around introducing exit questionnaires for staff leaving the University. Maintain watching brief, and as this comes into effect, ascertain whether there may be scope to revisit this action point – potentially incorporating addition questions for RFs. |
| 38 | 7 Impl &amp; Rev | Practice sharing with other institutions Nationally and internationally via: | RSO, Research Staff Reps | New ideas resulting from practice sharing incorporated into Concordat Implementation Plans and/or RSO/Reps activities. Regular innovations to University provision for researchers that are appreciated by researchers as evidenced by feedback from CROS surveys and informal feedback. Presentations of UoSx activity at conferences and networking events. Invited talks and/or requests for advice/input on external initiatives. | Ongoing | <strong>Update:</strong> &quot;Old&quot; RSO attended Erasmus Staff Training week at Universite de Liege in May 2017, exploring the HR Excellence agenda with EU based colleagues; attended Vitae International Conference Sep 2017; and EMCC HE coaching conference Nov 2017. &quot;New&quot; RSO engaging actively with community groups (SERD and FoRest) from Spring 2019 onwards – attending meetings, engaging in e-mail good practice sharing/mutual support going forwards; attended Vitae International Conference Sep 2019. &quot;Old&quot; RSO was peer reviewer for UK HR Excellence process (until 2018 when NJ left), 4 UK institutions reviewed to date. &quot;New&quot; RSO approached Vitae to become reviewer going forwards in Jan 2019. New activities/formats being introduced by new RSO (sharing practice from activities held in previous institutions) such as short &quot;drop-in&quot; responsive sessions, exploring theming provision for improved uptake, potentially delivering within Schools rather than centrally, introducing learnings from Career Coaching training into core RSO provision (e.g. Positive Psychology). &quot;New&quot; RSO invited to deliver opening training session for SEPNet Summer School in Jul 2019. Positive feedback led to repeat invitation for 2020 session. <strong>Going forwards:</strong> Action updated &amp; rolled forward into 2019-21 (Action point 14) |</p>
