Essay ESS (100%) - 3,000 words:
Students should submit a resit assignment which is of the same format as the original assignment as described on canvas, using the ‘resit image’. This is a different brain activation to that of the original assignment.

Figure X. Contrast between ______ and ______. Voxels: 542 Z = 3.53. Coordinates x = 13 y = 49 z =35. Temporoparietal Junction (TPJ). Activations are whole-brain cluster-corrected Z statistic maps (Z > 3.0, p < 0.05), which were overlaid onto the standard MNI brain.
