(913C8) Treatment Models and their Evaluation
Convenor: Kate Cavanagh

Project PRJ (20%):
This is the resit for the presentation. Students are required to submit slides and a presentation outline of the same title as the original. Further information is available on the Canvas module site.

Note – the original mode for this assessment is a Group Presentation, but it’s not possible to submit in that mode for resit – hence this is a PRJ instead.

Essay ESS (80%) - 2,000 words:
Students should submit an essay of the same title as the original.
