This is an exciting opportunity to join the School of Life Sciences as our Senior Knowledge Exchange Officer. The role holder will:

- Work on a variety of important, externally facing projects with the goal of maximising the impact of Sussex research and expertise in the local community, the economy and wider society.  
- Support academic staff with knowledge exchange activity, including public engagement activity, across the school/school group.  
- Work closely with the School’s Business Partnerships Manager to maximise the University’s Knowledge Exchange Framework (KEF) results through proactively building income-generating relationships between academics and external organisations.  
- Represent and champion the school and its world-leading research and expert capability when liaising between external, non-academic organisations (such as businesses, charities and public sector bodies) and the University.

Please contact Nick Bull n.bull@sussex.ac.uk for informal enquiries.

The University is committed to equality and valuing diversity, and applications are particularly welcomed from women and black and minority ethnic candidates, who are under-represented in academic posts in Science, Technology, Engineering, Medicine and Mathematics (STEMM) at Sussex.

For full details and how to apply see our [vacancies page](#)
The University of Sussex values the diversity of its staff and students and we welcome applicants from all backgrounds.

Please note: The University requires that work undertaken for the University is performed from the UK.

2. The School / Division

The School of Life Sciences is the largest in the University in terms of research activity, with an annual research income of around £13 million. The School has a teaching and research faculty of around 90, over 140 research staff, and an administrative team of around 20. The School is structured into five Departments led by a Head of Department. These are Biochemistry & Biomedicine, Genome Damage and Stability Centre, Neuroscience, Evolution, Behaviour & Environment and Chemistry, working closely with the Sussex Drug Discovery Centre. The Head of School Professor Sarah Guthrie leads the Head of School Executive, which includes two Deputy Heads of School (one focused on research and enterprise, the other on education), the School Administrator and the Director of Technical Services. Wider School organisation and administration is overseen by the School Management Committee, which includes the Heads of Departments and others in Directorship roles.

The School is committed to the University's core values of kindness, integrity, inclusion, collaboration and courage. The Equality, Diversity and Inclusion Committee (with representation on the School Management Committee) promotes and encourages our values across the School, championing initiatives that meet the University's goals of being Equal, Diverse, Accessible and Flexible. We currently hold an Athena SWAN Silver Award and have a BAME Awarding Gap Committee who closely liaise with the University’s Race Equality Charter committee. The School also hosts a wellbeing room and a multi-faith prayer room within its estate and the University supports the Trans Rights are Human Rights UK initiative. We believe that equality, diversity and inclusion is everyone’s business and aim to provide a friendly and supportive environment for all who work, study and visit the School of Life Sciences.

3. Job Description

Job Description for the post of: Knowledge Exchange Officer

Department: School of Life Sciences

Section/Unit/School: School of Life Sciences

Location: JMS Building
Grade: 6

Responsible to: Senior Research Manager

Responsible for: n/a

PRINCIPAL ACCOUNTABILITIES

The role holder will provide up to date and accurate information, advice and guidance on opportunities to increase the impact of school research through external partnerships, to researchers, managers and staff at all levels. You will work closely with the wider Innovation and Business Partnerships team to ensure a coherent approach to project development, external relationships across the University, with a focus on medical and life sciences.

• Support the Business Partnership Manager to increase income to the school through partnerships with external organisations.

• Be the first port of call for all KE queries from academics, and external organisations who want to work with the school. Direct enquiries to the relevant area of the school/university in a timely and efficient manner.

• Provide information, advice and guidance on a range of knowledge exchange activities to academic staff within the school in the context of the Knowledge Exchange Framework and the University’s Higher Education Innovation Fund.

• Work closely with the central Innovation & Business Partnerships team to ensure a coherent and consistent approach to KE activity is taken across the University.

• Maintain comprehensive records of innovation and commercialisation projects within the School -tracking income, expenditure, technical progress, external engagement, external relationships and emerging opportunities on all projects –for regular reporting the School’s Management Team and centrally through to Research & Knowledge Exchange Committee.

• Develop and maintain effective relationships to engender confidence and trust in the advice provided.

KEY RESPONSIBILITIES

• Proactively seek out new opportunities for academics to engage in knowledge exchange activities (i.e. patenting of an invention, licencing or consultancy).

• Confidently advising line managers, researchers and staff members, using appropriate methods of communication tailored to the audience (i.e. academics at all levels from professors to early career researchers and PHD students, CEOs, SMEs charities and public sector workers), answering straightforward questions or researching regulations, policies, interpreting procedures to answer more complex questions, or redirecting as appropriate, sometimes in situations where feelings may be running high.

• Developing and maintaining productive and collaborative relationships with, managers, colleagues, and other service areas demonstrating professional credibility
and ensuring key people are kept up to date with KE activities, within and beyond the university.

• Acting as a first port of call for all KE queries from academics, and external organisations who want to work with the school. Directing queries to the relevant colleagues.

• Increasing the level of understanding around knowledge exchange within the school resulting in more academics engaging in knowledge exchange activities.

• Being creative in producing training material, website content, delivering workshops, and supporting senior colleagues where appropriate in developing the knowledge and understanding of academics.

• Proactively contributing to the school and wider university KE culture through attending strategy and planning meetings and committees.

• Maintaining and updating information systems in line with the Data Protection Act, and ensuring accurate recording of query types and suggesting ideas for improvement.

• Preparing ad hoc and regular management reports on the use of the service area to aid the improvement of processes and understanding of the services provided.

• Undertaking any other duties that are within the Senior Knowledge Exchange Officer skills and abilities whenever reasonably requested.

Dimensions

• The post holder reports to the Senior Research Manager, and works in close cooperation with the School/s Business Partnership Manager and the Innovation and Business Partnerships team; working under comprehensive direction within a clear framework the post holder will manage their own work and achieve their agreed objectives. In doing this they ultimately support the achievement of the strategic and operational goals of the University, Professional Services & their School/s. The post holder may be expected to work collaboratively across the University and with key stakeholders to deliver single team working that efficiently and effectively supports the achievement of those goals and objectives.

• Support achievement of the School’s compliance with all applicable statutory and regulatory compliance obligations, including (but not limited to): UKVI, Health & Safety, the Prevent Duty, data protection, Competition and Markets Authority requirements and equal opportunities, as appropriate to the grade and role. Additionally, to promote good practice in relation to University policy, procedure and guidance in relation to those compliance matters in respect of students, staff and other relevant parties.

This Job Description sets out current responsibilities of the post that may vary from time to time without changing the general character of the post or level of responsibility entailed.

4. Person Specification
ESSENTIAL CRITERIA

1. Good secondary education.

2. Excellent stakeholder management and interpersonal skills and an ability to work closely with other people at all levels of seniority, both within and outside of the Universities.

3. Ability to plan, manage and prioritise own workload, respond to changing priorities and deliver innovative solutions to deadlines maintaining a consistently high standard of service and meeting client needs.

4. Effective oral and written communications skills to work with colleagues and customers providing information and responding to questions and queries.

5. Ability to work flexibly within a small team and on own initiative.

6. Competent IT skills to effectively manager own workload –MS Suite.

7. Ability to learn the legal and regulatory framework which governs university knowledge exchange landscape at pace.

8. A desire to be creative, make suggestions and actively contribute to the developing knowledge exchange and landscape and strategies at Sussex.

ESSENTIAL ROLE-SPECIFIC CRITERIA

   Good understanding of knowledge exchange in higher education, the benefits it brings to academic research, the university and wider society.
