C8021 Economic and Consumer Psychology

Convenor: Rona Hart

**Computer Based Exam - CEX (80%) – 2 hours 30 Minutes**

Once you start the exam you will have 2:30 hours to complete it, which includes 30 minutes extra for any technical issues.

You can choose to attempt the exam at any time in this 24 hour period, as long as you have given yourself enough time to complete the exam before the 24 hour period expires, at which point this exam page will close.

If you have reasonable adjustments, you will also have extra time. Note: you will not be able to answer questions after the deadline passes. Therefore it is advised that you start your exam earlier to make use of that extra time.

We recommend that you use Chrome or Firefox browser to complete the exam.

This exam requires you to write two mini-essays out of 6 options presented in the next section. You can answer the questions in the space provided or upload a word document with your answers.

If you encounter any technical issues preventing you from successfully completing the exam on your first attempt, you will have the option to reattempt. A re-attempt is ONLY allowed if a technical issue is present. (An audit may be performed on a re-attempt to check if technical issues were present). If you successfully complete the exam on your first attempt do not attempt it again as you run the risk of preventing the proper marking of your paper.

Wishing you success in your submission!
