C8528 Drugs, Brain, and Behaviour

Convenor: Hans Crombag, Eisuke Koya

**In-class test 1 (25%):**

Students are asked to take the resit, which will consist of 4 short answer questions, as it was the case with the sit. The in-class test will be available on Canvas and the students will be allowed 90 min to complete it.

**In-class test 2 (25%):**

Students are asked to take the resit, which will consist of 3 short answer questions, as it was the case with the sit. The in-class test will be available on Canvas and the students will be allowed 90 min to complete it.

**Computer Based Exam (50%):**

Students are asked to take the resit exam which will consist of a long answer question, as it was the case with the sit exam. The computer-based exam will be available on canvas and the students will be allowed 2 hours and 30 min to complete it.
