

CENTRE FOR TEACHING AND LEARNING RESEARCH

Space To Write

Monday 16 December / 10am-3pm
Seminar Room 18, Essex House

- **Do you find it difficult to create the space, find the focus, or harness the confidence to write?**
- **Do you have a project where writing as part of a supportive group might allow you to move forward or even get started?**

Whatever the nature of your writing task (doctoral writing, academic article or book chapters, a Blog, or something else) and whatever your role and experience, you will benefit from joining this workshop - for all or just a part of the day - which will largely be devoted to writing together in companionable silence, but will include opportunities to discuss tasks and progress made.

**Bring something to write on
and something to share over lunch**

Facilitated by Louise Gazeley
