

10 Positive Online Behaviours

These guidelines are intended to inform student behaviour online so that everyone can benefit from the highest possible learning experience.

LOCATION

Find a suitable place for participating and be mindful of other learners around you.

CAMERA

To help with group engagement, you are encouraged to turn your camera on, if possible. Use 'blur' or a background if you wish.

FOCUS

To focus on your learning, close any apps or programs that are not being used.

CHAT

Be considerate and constructive when engaging in online chat or discussions and be mindful that you are always building your online identity.

RESPECT

Be mindful others may be participating from different environments and respect their ability to learn.

PRIVACY

Please respect the privacy of tutors and your peers and do not record any online sessions.

MICROPHONES

Mute your microphone to help eliminate background noise that could distract others.

SENSITIVE TOPICS

Do not discuss or share sensitive material on social media or outside the session.

HAND RAISING

Raise your hand (either physically, or via the function) if you wish to be invited to speak.

DIGITAL WELLBEING

Seek to understand the positive benefits and any possible negative aspects of technology on your mental, physical and emotional health.
