

Use of IT Regulations

Simplified code

The following is a very brief summary of the main points of the IT regulations. You are expected to be familiar with the full regulations, which are available at <http://www.sussex.ac.uk/infosec/documents/itregulations.pdf>.

Governance

Don't break the law, do abide by the University of Sussex's regulations and policies, and do observe the regulations of any third parties whose facilities you access.

Identity

Don't allow anyone else to use your IT credentials, don't disguise your online identity and don't attempt to obtain or use anyone else's.

Infrastructure

Don't put the institution's IT facilities at risk by introducing malware, interfering with hardware or loading unauthorised software.

Information

Safeguard personal data, respect other people's information and don't abuse copyright material. Remember that mobile devices may not be a secure way to handle information.

Behaviour

Don't waste IT resources, interfere with others' legitimate use or behave towards others in a way that would not be acceptable in the physical world.
