

University of Sussex
Department of Mathematics
MMath Project Form

Please return this form to the School Office, or by e-mail to mathsoffice@sussex.ac.uk, **by the end of Week 3 of the Autumn semester.**

1. Choice

Find a project topic and a supervisor who is willing and agrees to supervise you on that project. A list of currently advertised projects can be found at the following link:

http://www.sussex.ac.uk/mps/internal/departments/mathematics/ug/studyingmaths/dissertation_topics

2. Assessment

The module is assessed by a written project report and an oral presentation. The written report should be an essay of approximately 15,000 words. The presentation should be 10 minutes long.

3. Style

The report should be typewritten. It is compulsory that you do it in LaTeX, a document preparation system made for Mathematics. The presentation should ideally be prepared as computer slides.

4. Submission

The submission deadline for the written report is listed on your Sussex Direct timetable. The oral presentation will take place at the end of the year; further details will be e-mailed to you closer to the time.

There is a separate document giving more details of all aspects of the Project.

Project Title _____
