NOUN Database
Jessica S. Horst

This database belongs to me, Jessica S. Horst. The creation of this database was made possibly by grant SG-50687 from the British Academy. I would like to thank Emilly J. Scott for her valuable assistance.

This database consists of novel object pictures (part 1) and unusual (novel) names sorted by the studies they have appeared in (part 2) or sorted by name (part 3).

You are welcome to use any of the images in the picture database. We simply ask that you acknowledge this database or creator(s). If you are interested in using any of the images shown here, please contact me via jessica@sussex.ac.uk or Katherine Twomey via word.lab@sussex.ac.uk and the desired file(s) will be sent to you.

The list of unusual names is taken from a collection of published studies. If you have suggestions for additional names to add (or would like to report an inaccuracy), please contact me via jessica@sussex.ac.uk or Katherine Twomey via word.lab@sussex.ac.uk.

Thank you.
Jessica Horst
