RETHINKING CAPITALISM

ECONOMICS AND POLICY FOR SUSTAINABLE AND INCLUSIVE GROWTH

Edited by Michael Jacobs and Mariana Mazzucato

In *Rethinking Capitalism*, leading economists challenge orthodox ideas about economic theory and policy and propose new approaches to achieving a more inclusive and sustainable economy.

The contributors analyse the reality of contemporary capitalism and the failure of current economic policies to encourage innovation, investment and long-term growth to tackle climate change, or to achieve an equitable distribution of income and wealth.

A powerful examination of both capitalism and economic theory, the book offers innovative, forward-thinking ideas for revitalizing modern economies.
