Union Black: Britain’s Black cultures and steps to anti-racism – Terms & Conditions

Overview

Santander Universities UK’s mission is to support students from diverse backgrounds into university, work, and self-employment. Collaborating with a large network of university partners, we have spent over ten successful years removing barriers to higher education and, in turn, providing life changing opportunities to students from across the UK.

The Covid-19 pandemic and the Black Lives Matter movement have shone a stark light on the racial inequalities that exist throughout all sections of UK society, including within higher education. In November 2020 Universities UK (UUUK) released a set of recommendations to decisively tackle racial harassment and address racial inequality in UK Higher Education. Given Santander’s unique relationship with Universities across the UK we identified an opportunity to support with this.

One of the key recommendations cited in the UUK paper was the need to “increase staff and students’ understanding of racism, racial harassment and microaggressions and white privilege, through training that is developed from an anti-racist perspective.”

In response to this Santander Universities UK has partnered with The Open University and FutureLearn, a digital education platform, to create an educational learning programme for staff and students from all UK Universities. The 6-hour course, designed by The Open University, is intended to support students and staff to increase their understanding of Black British history, race, and racism, and how individuals can make a positive difference. The course will launch at the start of the 2021/22 academic year in September 2021 and will be available twice a year (September and January each year) for the next three years.

All learners will receive a digital certificate upon completion of the 6-hours content. For year one of the programme (2021/2022 academic year) all students who complete the 6-hours online content will have the opportunity to win a £500 Santander Scholarship. 100 of these students will be randomly selected using an online random winner selection platform. The winners of the Santander Scholarship will also be invited to attend a closing event in person. Learners that have completed the course but have not won a Santander Scholarship will also be invited to attend the event virtually.
