

University of Sussex

Centre for Global Health Policy

- social science research centre, based in the School of Global Studies
- established in 2011, including a focus on the international politics of health and global health emergencies
- COVID-19 Work:
  1. Global Health Governance
  2. Role of International Institutions, including Africa Centres for Disease Control and Prevention (ACDC)
  3. Data Sharing & Bioinformational Diplomacy, especially the role of GISAID and GenBank
  4. Inequalities in the global distribution of new medicines and vaccines
  5. The growing role of public health Emergency Operations Centres (EOCs)
