TAKE FIVE Web Tutorials

Online Courses for Autumn 2015

Over the summer TEL delivered a number of online bitesize courses that sought to develop skills in different technological areas, which could be utilised both inside and outside of academia. The original idea was to run these courses as a pilot to gauge interest, needs and requirements. However, the response we received from university staff was overwhelming with over 100 individual staff members signing up for the courses and hugely positive feedback from participants.

As a result, TEL will rerun a selection of the courses this autumn, whilst also extending the regular offering to include new online courses. As with the TEL workshops, Open Badges will be available for many online courses.

See below for the courses offered and register at:

www.sussex.ac.uk/tel/workshops

Online Course	Start Date
Take 5: Podcasting	19/10/15
Take 5: Blogs	02/11/15
Take 5: SMART Software	16/11/15
Take 5: Digital Notemaking	30/11/15

Find out more about Open Badges:

TEL Innovation Scheme

The TEL Office is making available grants of up to £1000 to support the development of innovative practices in the use of technology within teaching and learning.

The TEL Innovation Scheme gives staff the opportunity to develop or experiment with new tools, resources or teaching approaches with the potential to inform practice in their School or disciplinary area. Deadline for proposals is November 30th.

Find out more at:

<http://www.sussex.ac.uk/tel/innovation>

TLI Fridays!

Every Friday the TEL team will offer a workshop to assist staff with their use of technology in Teaching, Learning and Innovation. Don't worry if Friday's not good for you, we also offer school-specific workshops on a different day upon request!

Sign up via Sussex Direct or find further information at:
www.sussex.ac.uk/tel/workshops

Workshop	Date	Time
Visualising classroom concepts	16/10/15	13:00-14:30
Evernote essentials	23/10/15	11:30-13:00

Building and maintaining a professional learning network	06/11/15	12:00-13:30
Designing engaging and visual presentations	13/11/15	14:00-15:00
Getting started with your iPad	20/11/15	12:00-13:00
SRS SOS - Using Poll Everywhere and Turning Point	23/11/15	12:00-13:30
Lights, camera, apption! (video creation)	27/11/15	TBA
Study Direct: Digital collaboration	04/12/15	11:00-12:00
Study Direct: Reflection, evaluation and feedback	11/12/15	13:00-14:00

New and improved for 2015-16

SMARTBoard Software

The software that accompanies the SMARTBoard has now been upgraded to the latest version. The newest version allows you to create concept maps and integrates with GeoGebra to allow you to explore algebra, geometry, tables, graphing, statistics and calculus with your students. There will be an online course to assist anyone looking to develop their skills with the SMART software and documentation on it can be found at: www.sussex.ac.uk/tel/learningtechnologies/iwb

E-Submission and E-Feedback

Having successfully debuted for first year students in 14/15, E-submission and E-feedback will return this year for all first and second year, text-based assessments. This means the addition of online moderation for all relevant assessments. Training will begin for all staff who are new to the process from the 30th of September.

To see resources and sign up for training, please visit: www.sussex.ac.uk/tel/submission/staff

ResponseWare

Do you use clickers? Do you find it frustrating to go and pick them up from Shawcross or are you constantly reminding students to bring them? Fret no more! The university has recently licenced ResponseWare which allows students to respond through any web-enabled device (either online or via an app) alongside the clicker handsets.

To register please email: tel@sussex.ac.uk

TEL welcomes Nicole Ingerson!

TEL would like to introduce and welcome Nicole Ingerson to the team. Nicole has been appointed to the role of Learning Technology Development Manager and will begin in October. Nicole has been based in IT services where she worked as a project manager overseeing the integration of ALMA (the new library management system), and TEL are excited for Nicole to bring her expertise and guidance to the team.

Mobile/Technology Week Returns!

Last November the TEL team, in collaboration with the Library, Doctoral School and the Careers and Employability Centre, organised and delivered a programme of events on campus that were focussed around the use of technology in learning, teaching and research.

The week was a resounding success with many people

from all areas of the University community participating in the plethora of workshops, seminars, and events that were delivered.

So, unsurprisingly, Mobile/Technology Week is back by popular demand! Beginning on 23rd November, the week will be packed with all things tech, demonstrating how technology can be used for both the

personal and professional side of university, as well as exemplifying some of the great practices that occur within the university in terms of using technology in teaching, learning and research.

If you would like to be involved in Mobile/Technology Week then please email: tel@sussex.ac.uk #sussexmtw
