Global exchange and mobility opportunities

The University provides three schemes to give academic and professional services staff the chance to visit our international partners in Europe and further afield. Please consider taking advantage of these opportunities for personal development, collaboration and sharing of expertise:

The [European Partnership](#)

[Development Fellowship](#) covers travel and accommodation costs to visit or host a colleague from our selected European partners for a minimum of three and maximum of 10 days.

The [Professional Services Fellowship](#) allows relevant staff to visit one of our selected partners for up to one week to share experiences and expertise. Partners include Georgetown and the Tokyo Institute of Technology.

The [Erasmus+ staff mobility programme](#) allows academic and administrative staff to visit a participating European university for a teaching or training visit. The UK's participation in Erasmus+ comes to an end in May 2023.
