Visiting and Exchange students 2017/18

1. Module marks

Marks are assured for the module at the relevant MAB in the School that owns the module. Therefore, marks will already have been assured for V&E students who took modules in Term 1 and will be assured for T2 modules in the Summer MABs.

V&E students are not considered by the PAB as they are not registered on an award.

2. Resit opportunities

Module failure leads to an automatic resit scheduled in the summer vacation assessment period (20th August to 7th September with submissions due at 16.00 on 20th August). A resit for a failed module will be uncapped in proportion with accepted EC (Regulation 2.7.8).

SSRO will identify all V&E students with a module failure including those who have an accepted EC claim.

3. Assessment modes

All V&E students are given a resit of the resit mode for all failed modules. Where the resit mode is an unseen exam or in-person assessment the School must set an alternative assessment mode to be taken by all V&E students (Regulation 1.2.4). Alternative modes that have not already been set up must be approved by the DTL on behalf of STLC, and reported to STLC as chair’s action. Schools can set up alternative assessment modes by going into the module assessment screen (ADD/ Mode Type =V&E/assessment mode, and then complete the details e.g. word length and deadline (16.00 on 20th August)).

Schools to provide essay titles to all students (including V&Es) taking a resit/sit after results have been released.

4. Module results

Term 1 only V&E students will have extended access to Sussex Direct so that they can see details of any resits required after leaving Sussex.

V&E year long and Term 2 only students’ module results will be published on Sussex Direct on the following results release dates:

Level 6 modules: 26th June
Level 3/4 modules: 12th July
Level 5 modules: 13th July
Level 7 modules: 18th July

5. Transcripts

The Study Abroad Office will produce and send transcripts to all V&E students showing the modules and marks that have been taken and achieved.
